MAYANK DUBEY

Data Scientist | Data Analyst (Fresher)

+91 93109 77098 | mayankdubey99999@gmail.com | New Delhi, 110087

SUMMARY

Final-year B.Tech (Data Science) student seeking an entry-level Data Scientist / Data Analyst role. Skilled in Python, SQL and machine learning, with hands-on project experience in recommendation systems and Text-to-SQL, plus a 4-month Full Stack Developer internship. Strong at turning raw data into clear insights through data cleaning, exploratory analysis, visualization and model building.

EDUCATION

Bachelor of Technology in Data Science **2023 – 2027**
Chaudhary Devi Lal University (CDLU), Sirsa, Haryana **CGPA: 8.0 / 10**

SKILLS

- **Python Libraries:** Python, NumPy, Pandas, SciPy, Matplotlib, Seaborn, Plotly, scikit-learn
- **Data Analysis:** Data Cleaning & Wrangling, EDA, Missing-Value & Outlier Handling, Data Visualization
- **Machine Learning & AI:** Machine Learning, NLP Basics, LLM APIs, Prompt Engineering
- **Databases & Tools:** SQL, PostgreSQL, MongoDB, DBMS, GitHub, VS Code
- **BI & Reporting:** Power BI, Tableau, Microsoft Excel, Streamlit

EXPERIENCE

Full Stack Developer Intern **09/2025 – 01/2026**
VetsKart Healthcare Solutions LLP *Internship (4 months)*

- Completed a 4-month Full Stack Developer internship program, contributing to the development of web application features.
- Collaborated with the technical team to build, test and improve application functionality.

PROJECTS

Hybrid Recommendation System *Python, Pandas, NumPy, scikit-learn*

- Built a hybrid recommender combining content-based filtering and collaborative filtering to suggest movies, books or products to users.
- Cleaned and preprocessed user–item data and addressed the cold-start problem through the hybrid approach.
- Evaluated recommendation quality using ranking metrics such as NDCG and MAP, and compared the hybrid model against single-method baselines.

Text-to-SQL *Python, SQL, LLM API, Streamlit*

- Developed a system that converts natural-language questions into SQL queries and runs them on a database to return answers.
- Used prompt engineering with the database schema to improve query accuracy, and validated generated SQL before execution.
- Lets non-technical users explore data without writing SQL manually.

COURSES

- **The Ultimate Job Ready Data Science Course**
- **Complete 2026 Python Bootcamp: Learn Python from Scratch** – CodeWithHarry

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** – Oracle University
- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** – Oracle University
- **Microsoft Azure AI Essentials Professional Certificate** – Microsoft & LinkedIn Learning
- **AWS Cloud Practitioner Essentials** – AWS Training & Certification

ACHIEVEMENTS

- **Data Analytics Job Simulation (Data Analysis, Forensic Technology)** – Deloitte, via Forage
- **Introduction to Career Skills in Data Analytics** – LinkedIn Learning
- **Introduction to Front End Development** – Simplilearn SkillUP
